2.2. Information on the Target and the Vendors

(a) Information on ASOM

Asian Sealand Offshore and Marine Pte. Ltd. is a private company incorporated in Singapore in March 2007. ASOM provides specialised offshore inspection, maintenance, repair and upgrade services for floating production assets throughout their operational lifecycle, supporting safety, reliability and compliance with applicable classification and regulatory requirements.

ASOM's services are typically performed offshore in-situ, enabling operators to carry out repair, maintenance and life-extension works while assets remain in production. These services support asset safety, operational reliability and compliance with classification and regulatory requirements.

ASOM operates an asset-light, service-centric business model, with revenue primarily driven by the deployment of skilled manpower rather than ownership of capital-intensive assets. This model supports efficient capital utilisation and has historically generated stable margins and strong cash conversion.

ASOM's core service offerings include:

(i) **Offshore Inspection, Repair and Maintenance (IRM)**

Provision of inspection, maintenance, repair and upgrade works on offshore floating production assets throughout their operational lifecycle.

(ii) **Structural Repair and Life-Extension Works**

Execution of structural reinstatement, steel renewal and life-extension works required to maintain the structural integrity of ageing offshore assets.

(iii) **Corrosion Prevention and Surface Protection**

Specialised coating, corrosion control and structural preservation services to extend the operational lifespan of offshore structures.

(iv) **Tank Integrity Management and Cleaning**

Inspection, cleaning and integrity management of tanks and critical infrastructure components.

LETTER TO SHAREHOLDERS

(v) **Engineering and Project Support Services**

Engineering design, planning, project management and commissioning support for offshore integrity and lifecycle works.

These works are primarily performed offshore in-situ, allowing operators to carry out maintenance and life-extension works while assets remain in production, thereby reducing operational disruption and supporting production continuity.

In addition, ASOM possesses specialised technical capabilities including rope access services (IRATA-certified), piping and mechanical works, rigging and scaffolding services, inspection and non-destructive testing, and structural fabrication and strengthening solutions such as the Sandwich Plate System (SPS™). ASOM's business model possesses characteristics that strengthen the Group's overall business model. ASOM operates an asset-light and service-centric model, with revenue primarily driven by skilled manpower deployment rather than ownership of heavy plant or capital-intensive assets. This results in limited capital expenditure requirements and supports efficient capital utilisation across the enlarged Group.

In addition, ASOM's revenue base is largely derived from brownfield lifecycle, integrity and compliance-driven maintenance activities, which are embedded within operators' recurring operating expenditure budgets. Such activities are typically supported by regulatory and classification requirements and therefore provide greater earnings visibility compared to discretionary, project-based greenfield works. These characteristics support stable margins and strong cash generation.

ASOM's customers comprise major floating production, storage and offloading vessel (FPSO) operators, offshore engineering contractors and shipyards, including industry participants such as SBM Offshore, MODEC, Yinson, BW Offshore, Seatrium and Sembcorp Marine.

ASOM has executed projects across several major offshore production regions, including West Africa (such as Angola, Côte d'Ivoire, Ghana and Equatorial Guinea), South America (including Brazil and Guyana), and the Asia-Pacific region (including Singapore, China, Malaysia, Indonesia, Myanmar and Australia).

ASOM maintains internationally recognised certifications and safety standards, including IRATA certification for rope access operations, ISO 9001 (quality management), ISO 14001 (environmental management), and ISO 45001 (occupational health and safety). These certifications support compliance with stringent offshore safety and operational standards.

As at the date of the SPA announcement, ASOM has an issued and fully paid-up share capital of S\$200,000 comprising 200,000 ordinary shares, of which:

- (i) the Company holds 102,000 shares (51%);
- (ii) ISUSTAINABILITY PTE. LTD. holds 49,000 shares (24.5%); and
- (iii) SPPG PTE. LTD. holds 49,000 shares (24.5%).

LETTER TO SHAREHOLDERS

(b) Corporate Structure of the Target Group

As at the date of the SPA, ASOM has three wholly-owned subsidiaries and one associated company, details of which are set out below.

LETTER TO SHAREHOLDERS

2.3. Valuation and Financial Information of the Target Group

(a) Valuation of the Target Group

There is no public market for the shares of the Target as the Target is a privately held company. Accordingly, the Consideration for the Proposed Acquisition was determined following arm's length negotiations between the Company and the Vendors on a willing-buyer willing-seller basis, after taking into account, inter alia, the financial performance of the Target Group, its business prospects and the strategic rationale for the Proposed Acquisition.

The Proposed Acquisition values the Target Group at an implied acquisition multiple of approximately 8.2 times PER based on the Target Group's historical financial performance. The Board considers this valuation to be reasonable after taking into account the Target Group's business model, which is characterised by relatively high gross margins, an asset-light operating structure and recurring revenue derived from brownfield offshore lifecycle services.

Based on the financial information made available to the Company, the Target Group has historically demonstrated strong profitability and cash generation characteristics. The Target Group recorded PAT of approximately S\$19.3 million for FY2024, with profit margins of approximately 20% across FY2023 to FY2025. In addition, the Target Group operates with minimal capital intensity and a strong balance sheet position, with net cash of approximately S\$32.0 million as at FY2025 (prior to any Permitted Dividend) and property, plant and equipment of approximately S\$0.3 million, reflecting the asset-light nature of its operations.

In addition, the Company has appointed AVA Associates Limited as the Independent Valuer to prepare an independent valuation report in respect of the Target Group. Based on the Independent Valuation Report, using the income approach, the Independent Valuer has assessed the value of 100% of the equity interest in the Target to be approximately S\$195.3 million. Based on this valuation and the Target's unaudited net profit of approximately S\$14.9 million for the 12-month period ended 31 December 2025, this implies a PER of approximately 13.1.

This valuation was derived using the discounted cash flow methodology as the primary valuation methodology and cross-checked using the guideline public company methods for reference.

A summary of the Independent Valuation Report will be set out in Appendix A to this Circular.

(b) Financial Information on the Target Group

2.4. Principal Terms of the Proposed Acquisition

(a) Sale Shares

Pursuant to the SPA, the Vendors have agreed to sell, and the Company has agreed to purchase, the Sale Shares comprising 98,000 ordinary shares in ASOM, representing 49% of the issued and paid-up share capital of ASOM. The Sale Shares shall be transferred free from all encumbrances and together with all rights attaching thereto as at Completion.

(b) Aggregate Consideration

The Aggregate Consideration for the Proposed Acquisition is S\$60,000,000, comprising the following components:

- (i) S\$20,000,000 to be satisfied by the allotment and issuance of 57,142,857 Consideration Shares in the Company at an Issue Price of S\$0.35 per share;
- (ii) S\$20,000,000 payable in cash at completion; and
- (iii) up to S\$20,000,000 in aggregate, in cash as Deferred and Contingent Consideration, subject to the Target's financial performance for FY2026 and FY2027.

The Consideration Shares represent approximately 27.3% of the Company's current issued and paid-up share capital and will represent approximately 21.5% of the Company's enlarged share capital immediately after Completion. The Issue Price represents a premium of approximately 12.8% to the VWAP of S\$0.3104 for trades done on the SGX-ST for the Shares on 23 February 2026, being the full market day on which the Shares were traded immediately preceding the date of the Term Sheet.

The Consideration Shares, when allotted and issued, shall be credited as fully paid-up and shall rank pari passu with the then existing issued Shares of the Company and the Vendors shall be entitled to all dividends and distributions in accordance with the record date of which is after the date of issuance of such Consideration Shares.

The Aggregate Consideration was arrived at after arm's length negotiations and on a willing buyer, willing seller basis, taking into account, inter alia, the internal assessment of the Target Group, the financial performance and prospects of the Target Group, and the rationale for and benefits of the Proposed Acquisition which are expected to accrue to the Company.

The issuance of the Consideration Shares will not result in any person triggering an obligation to make a mandatory general offer under Rule 14 of the Singapore Code on Take-overs and Mergers (the "Code").

LETTER TO SHAREHOLDERS

(c) Deferred and Contingent Consideration

The Deferred and Contingent Consideration constitutes contingent earn-out consideration and is not guaranteed.

The earn-out shall be determined based on the audited PAT of the Target at the entity level, excluding one-off items, acquisition accounting adjustments and extraordinary items.

The reference performance threshold shall be PAT of S\$15,000,000 per financial year for each of FY2026 and FY2027. The S\$15.0 million performance threshold for FY2026 and FY2027 was agreed between the parties on a commercial basis, with reference to the Target's FY2025 audited PAT as a baseline.

The Deferred and Contingent Consideration is contingent and payable only upon the said performance thresholds being met and shall be paid within twenty-one (21) calendar days after the issuance of audited financial statements for FY2026 and FY2027 respectively.

The annual earn-out amount (if any) shall be calculated as follows:

PAT	Earn-Out Amount
≥ S\$15,000,000	S\$10,000,000
> S\$5,000,000 but < S\$15,000,000	PAT - S\$5,000,000
≤ S\$5,000,000	Nil

Where the Target does not achieve a PAT of S\$15,000,000 in FY2026, but the aggregate PAT for FY2026 and FY2027 exceeds S\$30,000,000, the earn-out shall be determined on a cumulative basis, subject to an aggregate cap of S\$20,000,000. For the avoidance of doubt, where the Target achieves a PAT of S\$30,000,000 or more in FY2026, the earn-out payable in respect of FY2026 shall be capped at S\$10,000,000, and any additional earn-out payable shall be determined based on the combined performance of FY2026 and FY2027, taking into account any amounts already paid for FY2026, and subject always to the aggregate cap of S\$20,000,000.

The PAT shall be determined in accordance with the Singapore Financial Reporting Standards (International) or such other accounting standards as may be applicable to the Group, with the consistent accounting policies adopted in the prior financial years, and there shall be no changes to such accounting policies or practices, including but not limited to the revenue recognition policy or cost allocation methodology, that would materially affect the computation of the earn-out amount, unless required by the applicable law or mandatory changes to the applicable accounting standards.

(d) Conditions Precedent

The obligation of the Company to proceed to Completion under the SPA is conditional upon the satisfaction (or the Company's waiver, as the case may be, if in the Board's determination such waiver is deemed fit and not prejudicial to the interests of the Company and its minority shareholders) of, *inter alia*, the following Conditions Precedent:

- (i) the approval of the shareholders of the Purchaser having been obtained at a general meeting for the entry into the SPA and the transactions contemplated thereunder, including the allotment and issuance of the Consideration Shares, and such approval not having been revoked, amended or withdrawn;

LETTER TO SHAREHOLDERS

- (ii) the SGX-ST having granted its in-principle approval for the listing and quotation of the Consideration Shares on the Mainboard of the SGX-ST, and such approval not having been revoked or amended in a manner materially adverse to the Purchaser;
- (iii) an independent valuation report in respect of the Target Group having been issued by an Independent Valuer, and such valuation being acceptable to the Purchaser.
- (iv) the service agreements substantially in the form set out in Schedule 2 of the SPA having been entered into between the Warrantors and the Target, pursuant to which, inter alia:
 - (A) the Warrantors shall remain in the employment of the Target for a minimum period of two (2) years from the Completion Date (the “**Lock-In Period**”); and
 - (B) the Warrantors shall be subject to non-competition and non-solicitation restrictions during the Lock-In Period and for a period of two (2) years thereafter within the defined territory.
- (v) no event having occurred between the date of the SPA and the Completion Date which has or is reasonably likely to have a material adverse effect on the Target Group;
- (vi) all necessary approvals of the directors and/or shareholders of the Vendors having been obtained for the entry into the SPA and the transactions contemplated thereunder, and such approvals not having been revoked, amended or withdrawn;
- (vii) the representations and warranties given by the Vendors and the Warrantors under the SPA being true, accurate and not misleading in all material respects as at the date of the SPA and as at the Completion Date (as if repeated on the Completion Date).

If the Conditions Precedent are not satisfied (or waived in writing by the Company, where applicable) on or before 30 June 2026 (or such later date as the parties may agree in writing) (the “**Long Stop Date**”), any party shall be entitled to terminate the SPA in accordance with its terms.

(e) Completion

Subject to the fulfilment or waiver (as the case may be) of the Conditions Precedent set out in Section 2.4(d), Completion shall take place on the Completion Date, being seven (7) Business Days after the satisfaction or waiver of the Conditions Precedent, or such other date as the Purchaser and the Vendors may agree in writing.

If any of the Conditions Precedent are not satisfied or are not waived by the Purchaser on or before the Long Stop Date, the Purchaser shall be entitled (but not obliged) to terminate the SPA by written notice to the Vendors, whereupon each of the Vendors and the Purchaser shall be released and discharged from their respective obligations and liabilities thereunder, save in respect of (a) any claim by one of them against the other(s) for costs, damages, compensation or otherwise arising from any accrued liabilities, antecedent and/or existing breaches of the terms thereof, and (b) certain provisions expressly stated to survive termination, which shall continue in full force and effect to bind the Vendors and the Purchaser in accordance with their terms.

LETTER TO SHAREHOLDERS

Upon Completion, the Purchaser will acquire the Sale Shares representing forty-nine per cent (49%) of the issued and paid-up share capital of ASOM, and ASOM will become a wholly-owned subsidiary of the Purchaser.

(f) Permitted Dividend

Pursuant to the SPA, the Target may declare and pay a dividend of up to S\$8,000,000 in respect of FY2025 prior to Completion.

As at the Latest Practicable Date, S\$4,000,000 of the Permitted Dividend has been paid. The remaining S\$4,000,000 is expected to be paid prior to Completion.

(g) Tag-Along Right and Moratorium

During the Moratorium Period set out below, in the event the Executive Chairman (Mr. Chua Beng Yong) and CEO (Mr. Yong Jiunn Run) of the Company sell all (and not part) of their respective Shares in the Company to a third party, the Vendors may choose to sell all (and not part) of their respective Consideration Shares to the same buyer at the same price with the same terms (the “**Tag-Along Right**”).

Save for the Tag-Along Right, the Consideration Shares shall be subject to a moratorium. Under the SPA, each of the Vendors undertakes to the Company that they will observe a moratorium for a period of twenty-four (24) months from the date of issuance of the Consideration Shares (the “**Moratorium Period**”), during which they shall not transfer, charge, assign, pledge, mortgage, encumber, or otherwise dispose of, the Consideration Shares, in whole or in part, unless the prior written consent of the Board has been obtained.

Further, during such Moratorium Period, the Consideration Shares shall not be subject to, arranged with, encumbered by, or made the underlying asset of any derivatives transactions, hedging arrangements, or financial instruments of any nature whatsoever, including without limitation options, futures, swaps, contracts for difference, securities lending arrangements, or any other financial arrangement providing economic exposure to or hedging the risk associated with such Consideration Shares, in whole or in part, unless the prior written consent of the Board has been obtained.

During such Moratorium Period, in the event that the Executive Chairman (Mr. Chua Beng Yong) and CEO (Mr. Yong Jiunn Run) of the Company cease to be director or key management personnel of the Company, the Vendors shall be allowed to sell their respective Consideration Shares.

This moratorium does not apply to any sale, transfer or disposal to an offeror who, in consequence of accepting such transfer, sale or disposal, would be required to make a mandatory general offer (under the Code) for all of the Shares in the Company, nor accepting any existing general offer (under the Code) for, or scheme of arrangement of, the Shares in the Company.

The Board is of the view that the Tag-Along Right and Moratorium Period are in the best interests of the Company and its Shareholders as they serve to align the interests of the Vendors, who are also key management personnel of the Target Group, with the long-term performance of the Group following Completion of the Proposed Acquisition.

LETTER TO SHAREHOLDERS

In particular, the Moratorium Period supports continuity of management and operational stability of the Target Group during the critical post-Completion integration phase, while the Tag-Along Right provides the Vendors with a degree of downside protection in circumstances involving a full exit by the Executive Chairman and Chief Executive Officer, which the Board considers to be consistent with market practice in transactions involving deferred consideration and continued management participation.

The Board does not consider these arrangements to result in any undue entrenchment of key management personnel, as:

- (i) the arrangements are limited in duration, being subject to a defined Moratorium Period of twenty-four (24) months;
- (ii) the arrangements do not restrict the Board's ability to make management or strategic decisions in the best interests of the Company; and
- (iii) the continued involvement of the Vendors is important to maintaining the Target Group's earnings capability and customer relationships.

The Board is therefore satisfied that appropriate safeguards are in place and that the overall arrangements are on normal commercial terms and are not prejudicial to the interests of the Company and its Shareholders.

(h) Covenants of the Vendors and the Warrantors

From the date of the SPA until Completion, the Vendors and the Warrantors shall ensure that the Target carries on its business in the ordinary course and comply with the Target's Constitutional Documents and all applicable laws, and consistent with the past practice and shall not, without the prior written consent of the Purchaser, including among other things:

- (a) issue, allot or agree to issue any shares or securities in the Target;
- (b) declare, pay or make any dividend or distribution other than the Permitted Dividend;
- (c) incur any material capital expenditure outside the ordinary course of business;
- (d) enter into any material contract outside the ordinary course of business;
- (e) dispose of or acquire any material asset;
- (f) incur any borrowings outside the ordinary course of business;
- (g) terminate or materially vary any material contract; and
- (h) enter into any related party transaction other than on arm's length terms.

For the avoidance of doubt, the Permitted Dividend shall not constitute a breach of any pre-completion undertakings. The Aggregate Consideration shall not be subject to any adjustment arising from such Permitted Dividend.

From the date of the SPA until Completion, the Vendors and the Warrantors undertake that they shall not sell, transfer, assign, charge, pledge or otherwise dispose of any of the Sale Shares.

LETTER TO SHAREHOLDERS

The allotment and issuance of the Consideration Shares will not be undertaken pursuant to the general mandate obtained from Shareholders at the annual general meeting of the Company held on 15 April 2026, as the number of Consideration Shares exceeds the limit permitted under the general mandate.

2.5. Proposed Entry into Service Agreement

Pursuant to the SPA, the Warrantors shall enter into service agreements (the “**Service Agreements**”) with the Target substantially in the form set out in Schedule 2 of the SPA. The key terms of the Service Agreements are as set out below:

- (a) appointment of each Warrantor as a Director and/or Executive of the Target Group for an initial period of two (2) years from Completion, subject to renewal thereafter;
- (b) a lock-in obligation requiring each Warrantor to remain employed for a minimum period of two (2) years from Completion;
- (c) duties requiring full-time devotion to the business of the Target Group, compliance with applicable laws and regulations (including the Listing Rules), and obligations relating to conflicts of interest and arm’s length dealings;
- (d) remuneration comprising a monthly salary, an annual wage supplement (subject to approval), and discretionary incentive bonus arrangements;
- (e) restrictive covenants, including non-competition and non-solicitation obligations during employment and for a period of two (2) years post-termination; and
- (f) provisions linking continued employment to eligibility for the earn-out consideration under the SPA.

The Service Agreements are intended to ensure the continuity of management and operational expertise of the Target Group following Completion.

Save as disclosed above, no other person is proposed to be appointed as a director of the Company in connection with the Proposed Acquisition and accordingly no other service agreements are proposed to be entered into between the Company and any other person in connection with the Proposed Acquisition.

The Board is of the view that the terms of the Service Agreements are on normal commercial terms and are not prejudicial to the interests of the Company and its shareholders.

2.6. Source of Funds

The Proposed Acquisition will be funded by a combination of (i) the allotment and issuance of the Consideration Shares, (ii) internal cash resources of the Group, and (iii) external financing including bank financing. The Deferred and Contingent Consideration is also expected to be supported by the Target Group’s future earnings and operating cash flows.

2.7. Rationale for the Proposed Acquisition

The Target Group is a core operating subsidiary of the Group and has been a significant contributor to the Group’s revenue and profitability in recent financial years. The Target Group accounts for a substantial portion of the Group’s operating profit.

LETTER TO SHAREHOLDERS

ASOM operates in the offshore FPSO lifecycle integrity services sector, which is supported by structural demand drivers. A significant proportion of the global FPSO fleet is ageing and requires ongoing life-extension, structural reinstatement and compliance-driven maintenance works. Such services are typically embedded within operators' operating expenditure budgets and are driven by statutory inspection, certification and regulatory compliance requirements.

Demand for lifecycle integrity services is therefore relatively resilient compared to discretionary greenfield capital expenditure projects. The Board believes that the Proposed Acquisition will increase the Group's exposure to this structurally supported and recurring revenue segment.

The Proposed Acquisition will allow the Company to increase its equity interest in the Target from 51% to 100%, thereby enabling the Group to fully consolidate the financial performance of the Target Group and enhance the Group's earnings attributable to the Shareholders.

The Vendors will become new substantial shareholders of the Company following Completion and the Warrantors will continue playing active management roles in the business operation of the Target Group, which ensures continuity in leadership, operational oversight and customer relationships.

Based on the above, the Board believes that the Proposed Acquisition will strengthen the Group's financial position and profitability, provide greater operational flexibility and allow the Group to capture the full upside of the Target Group's future growth and expansion plans.

ASOM is also positioned to benefit from recurring maintenance demand across its existing FPSO assignments, onboarding of additional FPSO service engagements and expansion into adjacent offshore markets and regions. The Group's established relationships with leading FPSO operators and its in-situ offshore execution capabilities provide visibility over future maintenance programs and recurring service opportunities.

2.8. Financial Effects of the Proposed Acquisition

The financial effects of the Proposed Acquisition on the Group are set out below. The analysis is for illustrative purposes only and does not necessarily reflect the actual financial position and performance of the Group following Completion.

The financial effects have been prepared on a pro forma basis using the latest audited consolidated financial statements of the Group for the financial year ended 31 December 2025 (the "**FY2025 Financial Statements**") and based on the following assumptions:

- (a) the number of Shares is based on 208,987,973 Shares as at 31 December 2025, and adjusted for the exercise of 9,723,500 Bonus Warrants from 1 January 2026 to the LPD, the allotment and issuance of 57,142,856 Consideration Shares to the Vendors as consideration for the Proposed Acquisition, as well as the Placement of 15,625,000 Shares as announced in the Placement Completion Announcement, resulting in an enlarged share capital of 291,479,329 Shares immediately following Completion;
- (b) the Proposed Acquisition and the Placement had been completed and the Permitted Dividend had been declared on 31 December 2025 for the purposes of computing the pro forma financial effects on the net tangible assets ("**NTA**") per Share of the Company. The Placement proceeds are assumed to be net of estimated fees and expenses of approximately S\$210,000, resulting in net proceeds of approximately S\$4,790,000;

LETTER TO SHAREHOLDERS

- (c) the Proposed Acquisition and the Placement had been completed and the Permitted Dividend had been declared on 1 January 2025 for the purposes of computing the pro forma financial effects on the earnings per Share (“**EPS**”) of the Company;
- (d) the costs and expenses incurred in connection with the Proposed Acquisition are disregarded;
- (e) the Proposed Acquisition is expected to be earnings accretive but may result in a reduction in NTA per Share due to goodwill arising from the acquisition accounting due to the Proposed Acquisition and does not reflect the deterioration in the underlying operating performance or cash-generating capability of the Group;
- (f) the Company expects goodwill to arise from the Proposed Acquisition, representing the value of future growth, workforce and synergies;
- (g) EPS is calculated by dividing the net profit attributable to equity holders of the Company by the weighted average number of ordinary shares outstanding during the financial year.

No representation is made as to the actual results and/or financial position of the Company and/or the Group.

NTA per Share

The effects of the Proposed Acquisition on the NTA per Share of the Company for FY2025 are set out as follows:

	Before the Proposed Acquisition as of 31 December 2025	After Exercise of Bonus Warrants from 1 January 2026 to LPD	After Placement and Before the Proposed Acquisition	After the Proposed Acquisition
NTA of the Group attributable to Shareholders (S\$'000)	26,425	28,564	33,354	5,157
Number of Shares	208,987,973	218,711,473	234,336,473	291,479,329
NTA per Share (cents)	12.64	13.06	14.23	1.77

The reduction in NTA per share post-acquisition is primarily attributable to goodwill arising from the acquisition accounting and does not reflect deterioration in the underlying operating performance or cash-generating capability of the Group.

LETTER TO SHAREHOLDERS

The NTA of the Group after the Proposed Acquisition (as set out above) excludes the goodwill of approximately S\$48,198,000 assuming the full payment of the Aggregate Consideration was made in FY2025. The reduction in NTA per Share is primarily due to the goodwill arising from the acquisition accounting in relation to the Proposed Acquisition and does not reflect deterioration in underlying asset value. The NAV of the Group before and after the Proposed Acquisition (including the goodwill) are set out as follows:

	Before the Proposed Acquisition	After Exercise of Bonus Warrants from 1 January 2026 to LPD	After Placement and Before the Proposed Acquisition	After the Proposed Acquisition
NAV of the Group attributable to Shareholders (S\$'000)	26,425	28,564	33,354	53,354
Number of Shares	208,987,973	218,711,473	234,336,473	291,479,329
NAV per Share (cents)	12.64	13.06	14.23	18.30

EPS

The effects of the Proposed Acquisition on the EPS of the Company for FY2025 are as follows:

	Before the Proposed Acquisition	After Exercise of Bonus Warrants from 1 January 2026 to LPD	After Placement and Before the Proposed Acquisition	After the Proposed Acquisition
Profit attributable to Shareholders (S\$'000)	5,334	5,334	5,334	12,548
Weighted Average Number of Shares ⁽¹⁾	204,296,778	214,020,278	229,645,278	286,788,134
EPS (cents)	2.61	2.49	2.32	4.38

Note:

(1) The weighted average number of Shares was used for EPS as it measures performance over the financial period, while NTA and NAV, being point-in-time balance sheet measures, are computed based on the number of Shares in issue as at the reporting date.

LETTER TO SHAREHOLDERS

2.9. Relative Figures under Rule 1006 of the Listing Manual

Based on the FY2025 Financial Statements and the available financial information of the Target, the relative figures of the Proposed Acquisition as computed on the bases set out in Rule 1006 of the Listing Manual are as follows:

	Relative Figure
Rule 1006(a) The NAV of the assets to be disposed of, compared with the Group's NAV.	Not applicable
Rule 1006(b) The net profits attributable to the assets acquired or disposed of, compared with the Group's net profits.	54.6% ⁽¹⁾
Rule 1006(c) The aggregate value of the consideration given or received, compared with the market capitalisation of the Company based on the total number of issued shares excluding treasury shares.	89.0% ⁽²⁾
Rule 1006(d) The number of equity securities issued by the Company as consideration for an acquisition, compared with the number of equity securities previously in issue.	27.3% ⁽³⁾
Rule 1006(e) The aggregate volume or amount of proved and probable reserves to be disposed of, compared with the aggregate of the Group's proved and probable reserves. This basis is applicable to a disposal of mineral, oil or gas assets by a mineral, oil and gas company, but not to an acquisition of such assets.	Not applicable

Notes:

- (1) For the purposes of Rule 1006(b), "net profits" means profit or loss before income tax and non-controlling interests. The net profits attributable to 49% of the Target are S\$8,987,759 compared with the Group's net profits of S\$16,455,655 based on the FY2025 Financial Statements.
- (2) Pursuant to Rule 1003(3), where the consideration is in the form of shares, the value of the consideration shall be determined by reference either to the market value of such shares or the NAV represented by such shares, whichever is higher. In this instance, (i) the market value of the Consideration Shares is S\$17,737,143, based on the VWAP of S\$0.3104 on 23 February 2026, being the last traded full market day on which the Shares were traded immediately preceding 26 February 2026, being the date on which the Issue Price was agreed pursuant to the SPA; and (ii) the NAV of the Consideration Shares is approximately S\$7,222,857, based on the FY2025 Financial Statements, wherein the NAV per Share represented by such Shares as at 31 December 2025 was approximately S\$0.1264. The market capitalization of the Company is S\$64,869,867 calculated in accordance with Rule 1002(5).
- (3) The Consideration Shares represent approximately 27.3% of the Company's existing issued share capital of 208,987,973 Shares (excluding treasury shares and subsidiary holdings) as at 31 December 2025.

LETTER TO SHAREHOLDERS

2.10. Shareholders' Approval Required

Based on the above, the Proposed Acquisition constitutes a "major transaction" for the purposes of Chapter 10 of the Listing Manual. Accordingly, Shareholders' approval is proposed to be sought as Ordinary Resolution 1 at the upcoming EGM, notice of which is set out on pages N-1 to N-5 of this Circular.

3. THE PROPOSED ALLOTMENT AND ISSUE OF THE CONSIDERATION SHARES

3.1. Rules of the Listing Manual

Section 161 of the Companies Act 1967 of Singapore (the "Companies Act") and Rule 805 of the Listing Manual provide, among others, that an issuer must obtain prior approval of its Shareholders in general meeting for the issue of shares, unless such issue is covered under a general mandate obtained from Shareholders of the Company. Rule 806 of the Listing Manual states that any issue of shares, other than on a pro rata basis to existing Shareholders, made pursuant to a general mandate must be not more than 20% of the total number of issued shares (excluding treasury shares and subsidiary holdings).

Accordingly, the Company will be seeking approval from Shareholders for the allotment and issuance of the 57,142,857 Consideration Shares to the Vendors pursuant to Section 161 of the Companies Act and Rules 805 and 806 of the Listing Manual.

The allotment and issuance of the Consideration Shares will not be undertaken pursuant to the general mandate obtained from Shareholders at the annual general meeting of the Company held on 15 April 2026, as the number of Consideration Shares exceeds the limit permitted under the general mandate.

APPENDIX A – SUMMARY OF THE INDEPENDENT VALUATION REPORT

AVA Associates Limited

806 Empress Plaza

Tsim Sha Tsui, Hong Kong

To:
Board of Directors
Beng Kuang Marine Limited
2 Venture Drive
#14-15 Vision Exchange
Singapore 608526

Dear Sirs,

Pursuant to instructions from Beng Kuang Marine Limited (“**BKM**”, the “**Company**” or “**Client**”), AVA Associates Limited (“**AVA**”) has performed a valuation to estimate the value of the 49% equity interest (the “**Equity Interest**”) in Asian Sealand Offshore and Marine Pte Ltd (“**ASOM**”) and its subsidiaries (together, the “**Target Group**”) as of 31 December 2025 (“**Valuation Date**”).

The purpose of this engagement is to assist the Board of Directors (the “**Board**”) of BKM in their assessment of the value of the Target Group and inclusion in a circular (the “**Circular**”) to the shareholders on the proposed acquisition of the Equity Interest in the Target Group. No other use, direct or indirect, of our analysis is intended or inferred or shall be relied upon by the Company other than explicitly specified in our engagement letter dated 13 February 2026.

This summary valuation letter (“**Letter**”) has been prepared for the purpose of inclusion as an appendix to the Circular to be issued by the Company in relation to, *inter alia*, the proposed acquisition.

This Letter sets out a summary of the information contained in our independent business valuation report dated 12 March 2026 (“**Valuation Report**”). This Letter should be read in conjunction with the full text of the Valuation Report.

Definition of Value

In estimating the value of the Target Group, our efforts were based on the following premise of value:

Market Value – *“The estimated amount for which an asset should exchange on the date of valuation between a willing buyer and a willing seller in an arm’s-length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion.”* Such value represents an estimate based on the economic theory of equilibrium price for an asset in an efficient market.

Scope of Work

BKM, listed on the Singapore Exchange Securities Trading Limited, owns 51% of the Target Group and intends to acquire the remaining 49% equity stake. The Target Group operates in Singapore, Malaysia and South America providing offshore repair and maintenance services.

APPENDIX A – SUMMARY OF THE INDEPENDENT VALUATION REPORT

AVA has been engaged by BKM to assist the Company to estimate the Equity Interest of the Target Group, on a going concern basis, in order to facilitate the Board's assessment of the proposed acquisition. Our work consisted of determining the Market Value of a 100% and 49% interest in the Target Group as at Valuation Date. The value of the 100% interest is derived primarily from a discounted cash flow (“DCF”) analysis of the financial projections for the Target Group.

Our valuation and reports are prepared in accordance with the International Valuation Standards (2024 edition) as published by the International Valuation Standard Committee and requirements as set out in Practice Note 1 - *Minimum Requirements for Performing Valuations and Issuing Business Valuation Reports* and Practice Note 2 - *Minimum Disclosure Requirements for Summary Valuation Letters* by Institute of Valuers and Appraisers of Singapore. The procedures used in our analysis included such substantive steps, as we considered necessary, including, but not necessarily limited to, the following:

- Preparation of an information checklist for information gathering;
- Site visit;
- Discussion with the appropriate parties regarding the identified assets, adopted/proposed valuation methodologies, current/proposed operations and historical/forecast financials of the Target Group, as well as its prospects, etc;
- Development of appropriate valuation models pertinent to the exercise;
- Preparation of draft reports for discussion with the Company; and
- Submission of the final report for the purpose of this exercise.

Sources of Information

As part of our due diligence, we relied upon documents supplied by BKM, including, but not limited to, the following for the Target Group:

- Audited financial statements for the 12-month period ended 31 December (“FY”) from 2021 to 2024;
- Consolidated management accounts for the period from FY2023 to FY2025 with detailed breakdown of selected items ;
- 5-year financial forecast for the period from 2026 to 2030;
- Aging summary for trade receivables and accounts payable as at FY2023, FY2024 and Valuation Date;
- List of suppliers and customers for FYs from 2022 to 2024;
- Fixed asset listings as at 31 December 2023, 31 December 2024 and Valuation Date;
- Certificates and agreements;
- Corporate presentation deck on ASOM; and
- Other relevant documentations.

We planned and performed our review and valuation so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to express our opinion on the subject asset. In the course of our work, we held discussions with the management concerning the history and current conditions of the Target Group, financial and general outlook of the business. We assumed that the data we obtained in the course of the valuation, along with the opinions and representations provided to us are true and accurate. We have, however, made reasonable enquiries and exercised our judgement on the reasonable use of such information and representations (as deemed necessary) provided to us, and have found no reason to doubt the accuracy or reliability of such information or representations which we have relied on. We also used financial and other information obtained from private and public sources we considered reliable. Our conclusions are dependent on such information being complete and accurate in all material respects. We believe the review and valuation procedures we employed provide a reasonable basis for our opinion.

APPENDIX A – SUMMARY OF THE INDEPENDENT VALUATION REPORT

Statement of Independence

We confirm that we have no present or contemplated interest in BKM and the Target Group, which is the subject of this valuation and are acting independently of all parties.

Valuation Theory

Our approach in valuing the identified asset relies on using the appropriate techniques to arrive at our conclusion of value. We considered the three generally recognized approaches to value: the income, market and cost approaches.

An overview of the three approaches considered is as follows:

- The Income Approach focuses on the income-producing capability of a business or asset. The income approach measures the current value of a business or asset by calculating the present value of its future economic benefits such as cash earnings, cost savings, tax deductions, and proceeds from disposition. Value indications are developed by discounting expected cash flows to their present value at a rate of return that incorporates the risk-free rate for the use of funds, the expected rate of inflation, and risks associated with the particular investment. The discount rate selected is generally based on rates of return available from alternative investments of similar type and quality as of the valuation date.
- The Market Approach measures the value of a business or asset through an analysis of recent sales or offerings of comparable businesses or assets. In estimating the value of a business under the market approach there are two methodologies: the publicly-traded guideline company methodology and the recent transaction methodology. The publicly traded guideline company methodology develops an indication of value for the subject company by calculating market pricing multiples for selected publicly-traded guideline companies and applying these multiples to the appropriate financial measures of the subject company. The recent transaction methodology develops an indication of value for the subject company by calculating market pricing multiples based on actual acquisitions of similar businesses and applying these multiples to the appropriate financial measures of the subject company. After deriving a value, adjustments are then made to account for differences between the subject business or asset being valued and the comparable businesses or assets used in the analysis.
- The Cost Approach measures the value of a business or asset by the cost to reconstruct or replace it with another of like utility. To the extent that the assets being valued provide less utility than new assets, the reproduction or replacement cost new would be adjusted to reflect appropriate physical deterioration, functional obsolescence, and economic obsolescence. The cost approach recognizes that a prudent investor would not ordinarily pay more for property or an asset than the cost to replace them new.

Selected Valuation Approach - The Equity Interest in the Target Group

We selected the Income Approach to estimate the value of the 100% interest in the Target Group. Our basis for selecting this approach was due to the availability of relevant data, specifically the historical financial and operating records of the respective company, as provided by the Company. Based on this information, we utilized a DCF methodology to estimate the cash that is available, either to invest in new or existing businesses or to distribute, to both equity and debt holders of the company.

APPENDIX A – SUMMARY OF THE INDEPENDENT VALUATION REPORT

The value of the Equity Interest of the Target Group is derived based on the following formula:

$$\begin{array}{c} \text{Market Value of the Equity Interest} \\ = \\ \text{Enterprise Value} - \text{Debt} + \text{Cash} + \text{Non-Operating Assets}/(\text{Liabilities}) \end{array}$$

Enterprise Value (“**EV**”) is a measure of a company's value or business to its stakeholders, namely debt holders and equity owners.

Under the DCF method, we firstly performed the following to estimate the EV of the business:

- Relied on cash flow projections for a period of 5 years, from Valuation Date to 31 December 2030, based on reasonable and sound assumptions that represent the management’s best estimate; and
- Applied an appropriate discount rate, the weighted cost of capital (“**WACC**”), to the cash flow projections, to determine the EV.

Thereafter, to arrive at the Market Value of the Equity Interest, the following steps were applied to the EV:

- Added the cash balance;
- Subtracted a proposed dividend amount;
- Subtracted interest-bearing borrowings;
- Applied a discount for lack of marketability; and
- Calculated the 49% stake as the value of the Equity Interest.

The market approach was not deemed appropriate due to the lack of comparable market transactions, deal information and prices. We performed a similar transaction search and found no similar disclosed recent transactions. However, we performed a cross-check via the guideline public company method where we derived the implied valuation of the Target Group based on selected valuation metrics of the comparable companies, namely, the EV/EBITDA and EV/EBIT ratios. These ratios illustrate the relative valuation of a company based on its ability to generate operating cash flows.

The cost approach was also deemed inappropriate, as some of the significant assets of the business are the Target Group’s customer/supplier relationships and its assembled workforce. These would not be properly reflected using a cost approach methodology.

Valuation Method

In line with our scope of work to derive the value of the Target Group, we chose the DCF methodology as it enables us to view the company with its portfolio of assets as an operating entity, with the principal focus of the analysis on the operating entity’s ability to generate free cash flow in the future, based on assumptions provided by the company. Free cash flow to enterprise/firm (“**FCFF**”) is defined as cash that is available either to invest in new or existing businesses or to distribute to investors (equity and debt holders). Reasonable projections of revenues, expenses, and reinvestment requirements (i.e. working capital and capital expenditures) form the basis for estimating the future free cash flows that a company will likely generate from its existing business.

The FCFF for each year of the projection period was calculated by adding non-cash expenses, such as depreciation and amortization, interest, deferred rent, and stock option expense, to and deducting incremental investments in working capital, and capital expenditures from the net profit.

APPENDIX A – SUMMARY OF THE INDEPENDENT VALUATION REPORT

The projected free cash flows were discounted to present value at an appropriate rate of return, or “discount rate” that reflects macroeconomic, industry, and firm-specific factors in determining the degree of perceived risk associated with the projected cash flow. The sum of the discounted stream of future free cash flow, together with the value of non-operating assets, reflects the market value of the subject enterprise or portfolio of assets.

In addition to calculating the FCFF throughout the projection period, it is necessary to calculate the terminal value of the subject business which reflects the value of the total capital at the end of the projection period. The terminal value was calculated by applying the Gordon Growth Model, a mathematical simplification to capitalize an earnings stream that is expected to grow at a long-term sustainable rate “g” and discount rate “k” into perpetuity. The formula is as follows:

$$\text{Terminal Value} = \frac{\text{Normalized Free Cash to Equity \& Debt Holders} * (1 + \text{Constant Growth Rate})}{\text{Discount Rate} - \text{Growth Rate}}$$

The discount rate in this exercise is the WACC. It is comprised of a required rate of return on equity, derived using the Capital Asset Pricing Model, plus the current tax-effected rate of return on debt, weighted by the relative percentages of equity and debt in the capital structure of the target business and of comparable public companies whose business operations are similar to those of the target business.

Key Valuation Assumptions

We have assumed the following for the purpose of this exercise:

- In the course of operating the business, it will compose of all necessary assets, both tangible and intangible, to continue operating as it has under its current owners;
- The management accounts, while unaudited by external auditors, have been properly prepared to reflect true financial performance and standing;
- There will be no material change in the existing political, legal, technological, fiscal or economic condition which may adversely affect the development and business of the Target Group; and
- There is no hidden or unexpected conditions associated with the assets valued that might adversely affect the reported value.

ASOM has provided us with guidance on historical revenue, expenses, and working capital requirements. A 5-year financial forecast for the period from 2026 to 2030 was also made available to us. Based on our professional judgement, we have put forth a set of parameters deemed to be reasonable to arrive at a revised 5-year projection from Valuation Date and adopted it for the purpose of this valuation. We discussed the risks of achieving these projections and the overall reasonableness of the parameters used. We considered the impact of each valuation-related parameter individually, and the related impact on our overall valuation conclusions.

Although the information and assumptions used in the cash flow projections are a reasonable basis for valuation purposes, our analysis and use of them do not constitute an examination or compilation of prospective financial information in accordance with established standards.

AVA is unable to provide assurance on the achievability of the results forecasted by ASOM as events and circumstances frequently do not occur as expected; differences between actual and expected results may be material; and achievement of the forecasted results is dependent on actions, plans and assumptions of the management of the Target Group. Except as disclosed in this report, neither AVA, BKM nor the Target Group is aware of other liabilities, including any contingent liabilities or unusual contractual obligations or substantial commitments, which would have a material effect on the value of the Target Group.

APPENDIX A – SUMMARY OF THE INDEPENDENT VALUATION REPORT

Below is a summary of the salient assumptions adopted in our valuation model.

Revenue

Total revenue is forecasted to grow at a 5-year compound average growth rate of 10.4% from S\$75.2 million in FY2025 to S\$123.5 million in FY2030. This growth is to be driven by an expected growth of 17.0% in FY2026 from a combination of projects on hand and projects with a high probability of being secured. An 8.8% annual growth, based on the general expectations of growth for the floating production storage and offloading (FPSO) market, is forecasted for the remaining forecast period from 2027 to 2030.

Gross Margin

This margin is forecasted to decrease steadily from the 40.1% achieved in FY2025 to 26.8% in FY2030 as competition causes mean reversion of this profit margin.

Operating Expenses

Operating expenses, namely salaries and profit sharing incentives, as a percentage of revenue are forecasted to decrease steadily from the 14.5%, or S\$10.9 million, recorded in FY2025 to 9.7% in FY2030, or S\$12.0 million, as the business enjoys operational efficiency amid the growth in revenue.

Capital Expenditures

The business model of the Target Group allows the company to operate with a relatively low amount of fixed assets. We have projected an investment of S\$200,000 annually to maintain a stable amount of fixed assets for its operation.

Discount Rate

A WACC of 9.1% has been calculated for the Target Group, based on the Capital Asset Pricing Model.

Long Term Growth Rate

A long term growth rate of 2.0% annually, for periods beyond 2030, has been applied. This rate corresponds to the long term general growth prospects of the international economies as presented by the Asian Development Bank in December 2025.

Valuation of the Target Group

Our DCF model to derive the EV of the Target Group, being a 100% interest in the subject, is based on a WACC of 9.1% and a terminal growth rate of 2.0%.

The EV is derived by summing the present value of FCFF over the forecast period and the terminal value. The EV of the Target Group, being the value of the business to debt holders and shareholders, is calculated to be S\$220,489,228.

As a sanity check on the EV above, we determined the EV/EBITDA and EV/EBIT ratios of the Target Group, based on FY2025 EBITDA and EBIT, to be 10.94 and 11.15 respectively. These are within the range of those of comparable public-listed peers in Singapore and Malaysia, whose EV/EBITDA and EV/EBIT range from 2.6 to 22.8 and 3.6 to 32.0 respectively.

As for the value of the 100% equity interest, the following formula is applied to arrive at a value of S\$244,431,018 for the Target Group.

$\begin{aligned} & \text{Market Value of the Equity Interest} \\ & = \\ & \text{Enterprise Value} - \text{Debt} + \text{Excess Cash} + \text{Non-Operating Assets}/(\text{Liabilities}) \end{aligned}$
--

APPENDIX A – SUMMARY OF THE INDEPENDENT VALUATION REPORT

Balance sheet items that figured into the formula above are as book value of cash of S\$32,043,416 and borrowings of S\$101,626. We also subtracted S\$8,000,000 for a proposed dividend to be payable as at Valuation Date, as represented by BKM.

As the value of S\$244,431,018 represents the value of a 100% stake in a private company, we applied a discount of 20.1% to account for the lack of marketability. This percentage is based on a study prepared by Moore Hong Kong in February 2026. This results in an adjusted value of S\$195,300,383 for the 100% equity interest in the Target Group.

A 49% equity interest is thus calculated to be S\$95,697,188 or rounded to S\$96,000,000.

More details of our work are set out in our Valuation Report.

Do note that any deviation from the key limitations and assumptions adopted may significantly impact the valuation result.

The conclusion of value is based on the accepted valuation procedures and practices that rely substantially on the use of numerous assumptions and the consideration of many uncertainties, not all of which can be easily quantified or ascertained. While the assumptions and consideration of such matters are considered to be reasonable, they are inherently subject to significant business, economic and competitive uncertainties and contingencies, many of which are beyond the control of AVA and the Target Group.

Users of this valuation report should be mindful that value is time dependent. In estimating the value, AVA has taken into consideration the available information, all known factors and market environment of the subject of valuation as at Valuation Date. The Valuation Date is the specific point in time as of which our opinion of value applies. This fundamental principle forbids the application of hindsight and removes any use of retrospective evidence such as data or information in forming the assessment of value, unless these facts would reasonably have been known or knowable as at Valuation Date. Our valuation is strictly guided by this principle.

Conclusion of Value

Based on the information provided, our analyses and conclusions of the various approaches, and subject to the attached Statement of General Assumptions and Limiting Conditions, we are of the opinion that, as at Valuation Date, the Market Value of the Equity Interest in the Target Group is reasonably represented as follows.

Description of Subject	Market Value
49% equity interest in ASOM	S\$ 96,000,000

We do not intend to express any opinion on matters which require legal or other specialized expertise or knowledge, beyond what is customarily employed by valuers. Our conclusions assume continuations of prudent management over whatever period of time that is reasonable and necessary to maintain the character and integrity of the assets valued.
