Group Turnover	2nd Quarter results			
	FY 2012 S\$'million	FY 2011 S\$'million	+ / (-) S\$'million	+ / (-) %
Infrastructure & Engineering ("IE")	13.42	29.54	(16.12)	(54.6)
Corrosion Prevention ("CP")	7.89	7.07	0.82	11.6
Supply & Distribution ("SD")	3.75	3.99	(0.24)	(6.0)
Shipping & Others ("SH")	2.05	0.23	1.82	791.3
	27.11	40.83	(13.72)	(33.6)

The Group's revenue decreased by 33.6% or S\$13.72 million from S\$40.83 million in 2Q2011 to S\$27.11 million in 2Q2012. Significant revenue decreases registered by our IE division more than offset the gains achieved by our CP & SH divisions, thus resulting in the drop in Group's revenue.

2Q2012 revenue recognition by our IE division fell 54.6% year-on-year to S\$13.42 million. Construction on projects secured during 4Q2010 and 1H2011 were largely carried out during FY2011. Hence, volume of works carried out on these projects nearing completion during 1H2012 was comparatively lesser. Construction revenue recognition for 2Q2012 was also negatively impacted due to no significant shipbuilding contract secured since the end of 1H2011.

Revenue from our CP division improved by S\$0.82 million from S\$7.07 million in 2Q2011 to S\$7.89 million in 2Q2012. This was due to the fairly stable volume of our recurring hull-side corrosion prevention business from shipyards in Singapore during the two comparative quarters.

Our SD division registered marginal revenue decrease of S\$0.24 million from S\$3.99 million in 2Q2011 to S\$3.75 million in 2Q2012. Demand for our hardware products and consumables remained fairly constant during the two periods.

Our SH division generated charter income of S\$2.05 million during 2Q2012. This was derived from all six pair of tug boats and cargo barges, and our first livestock carrier which commenced its maiden voyage in December 2011.

As a result of the fall in Group's revenue, the Group's net profit attributable to shareholders declined by 87.1% to S\$0.25 million in 2Q2012 as compared to S\$1.93 million recorded for 2Q2011.

Group Turnover	1st Half results			
	FY 2012 S\$'million	FY 2011 S\$'million	+ / (-) S\$'million	+ / (-) %
Infrastructure & Engineering ("IE")	25.20	50.62	(25.42)	(50.2)
Corrosion Prevention ("CP")	15.81	14.04	1.77	12.6
Supply & Distribution ("SD")	7.52	7.58	(0.06)	(0.8)
Shipping & Others ("SH")	3.59	0.23	3.36	1460.9
	52.12	72.47	(20.35)	(28.1)

The Group's revenue decreased by 28.1% or S\$20.35 million from S\$72.47 million in 1H2011 to S\$52.12 million in 1H2012. The decrease was mainly due to the significant drop in revenue recorded by our IE division during 1H2012.

As explained above, lesser construction activity and the inability to secure significant shipbuilding contract were the main causes for the lower 1H2012 revenue of S\$25.20 million registered by our IE division compared to the S\$50.62 million revenue achieved for the same period last year.

Revenue for our CP division increased by S\$1.77 million from S\$14.04 million in 1H2011 to S\$15.81 million in 1H2012. This was due to more projects awarded by major shipyards in Singapore as compared to the same period last year.

Revenue for our SD division was fairly constant for 1H2012 and 1H2011 as demand for our hardware products and consumables remained stable.

Our SH division generated charter income of S\$3.59 million for 1H2012. This was derived from all six pair of tug boats and cargo barges, and our first livestock carrier which commenced its maiden voyage in December 2011. As a result, 1H2012 revenue for our SH division increased by S\$3.36 million year-on-year to S\$3.59 million.

The Group's net profits attributable to shareholders decreased by 60.6% to S\$1.03 million for the six month ended 30 June 2012 as compared to S\$2.61 million for the previous corresponding period. The decrease in profit attributable to shareholders was mainly due to lower Group's revenue; and higher administrative expenses due to increases in payroll and workers' accommodation costs.

CASHFLOW STATEMENT

The Group generated a lower net operating cash inflow of S\$0.19 million during 2Q2012 compared to the higher S\$7.20 million during 2Q2011. The significant decrease was mainly due to a lower pre-tax profit of S\$0.27 million recorded for 2Q2012 compared to a pre-tax profit of S\$2.18 million achieved for 2Q2011.

Net outflow from investing activities for 2Q2012 was S\$2.98 million. This net outflow was mainly due to approximately S\$2.00 million being used to upgrade our Batam shipyard's fabrication workshop facilities and approximately S\$0.70 million incurred for the on-going conversion of our second livestock carrier at our yard which commenced during 2Q2012.

The net cash inflow in financing activities of S\$3.10 million was mainly due to net bank borrowings of S\$4.78 million being drawn during 2Q2012 to finance mainly on-going construction of customers' new vessels in our yard and upgrading of our Batam yard's facilities.

As a result of the above, the Group registered a marginal net increase in cash and cash equivalents of approximately S\$0.32 million for the 3 months ended 30 June 2012.

ASSETS AND LIABILITIES

The Group registered total assets of S\$228.96 million as at 30 June 2012.

The Group's current assets declined from S\$131.12 million as at 31 December 2011 to S\$120.44 million as at 30 June 2012. The decline was due to lower cash and bank balances. In addition, trade receivables was lower mainly due to the completion and delivery of a new vessel by our IE division during 1Q2012.

Non-current assets increased S\$4.70 million to S\$108.52 million as at 30 June 2012. This was mainly due to capital expenditure for the purchase of our second livestock carrier and for upgrading our Batam shipyard facilities.

Total liabilities for the Group were S\$144.29 million as at the end of 1H2012 as compared to S\$150.08 million as at 31 December 2011. The decline was mainly due to the Group reducing its trade payables and project financing loan upon the successful delivery of a customer's vessel during 1Q2012.

The Group registered net current liabilities of S\$8.09 million as at 30 June 2012 and S\$0.04 million as at 31 December 2011. The net current liabilities were mainly due to the Group's utilisation of a portion of its short-term bank borrowings to finance the acquisition of 5 pair of tug boats and cargo barges added to the shipping fleet in FY2011, and the second livestock carrier purchased in 1Q2012.

The Group is finalising financing terms for the tugs and barges with a banker and expects to complete the transaction in 3Q2012. Upon receiving the long-term facilities, the Group will pay down the short-term borrowings, which should improve the Group's net current asset position.

- 9 Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.**

Not applicable.

- 10 A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.**

With the current financial and economic uncertainties in Europe and the United States, the global business environment is expected to be volatile. In addition, the global shipbuilding industry currently faces many challenges. Competition for new vessel building jobs has been very keen. Since the end of 1H2011, the Group has not been able to secure any sizeable shipbuilding project. In addition, with most of our major IE projects nearing completion, the Group, therefore, expects the outlook for the second half of the year to be challenging and difficult. Apart from continuing to upgrade our Batam shipyard facilities and to improve our operating processes in a bid to enhance competitiveness, the Group will continue to seek out new opportunities and focus on securing more marine construction projects, particularly those related to the offshore oil & gas industry, to improve our net earnings.
